

How do I connect my Growatt inverter to WiFi?

Ensure your inverter is powered on and properly installed. Locate the WiFi module (dongle) at the back of the inverter. If your inverter doesn't have a WiFi module, you will need to purchase a compatible Growatt WiFi dongle. 2. Download the Growatt ShinePhone App Install the ShinePhone App from the App Store (iOS) or Google Play (Android).

How do I connect my Growatt meter to my inverter?

Go to Settings > Meters > Add device > Growatt and enter your login credentials. The app will now connect to the inverter. If your graph shows incomplete or no data, make sure that your inverters are in the same installation. You can check this by going to the Growatt app.

How do I monitor my Growatt solar inverter?

If you have a Growatt solar inverter, you can connect it to your home's wifi network. This will allow you to monitor your system's performance and receive updates and alerts via the Growatt monitoring app. Here's how to do it: Start by ensuring that your wifi router is turned on and connected to the Internet.

How do I use the Growatt app?

Once your Growatt inverter is connected to WiFi, you can use the Growatt app to monitor the performance of your solar energy system. This includes monitoring the amount of energy being produced, the status of your inverter, and any alerts or notifications about any issues with your system.

How do I add a Growatt solar inverter to the energy app?

To add your Growatt solar inverter to the Energy App you need your Growatt Username and Password. These are the same credentials used for the Growatt ShinePhone-app for monitoring your solar panels. For this functionality Energy+ and a Growatt inverter with an internet connection are required.

Where is the wifi module located on a Growatt inverter?

This module is typically located on the back of the inverter. If your inverter does not have a WiFi module, you can purchase one from Growatt. Next, you'll need to download the Growatt app. This app is available for both iOS and Android devices and can be downloaded for free from the App Store or Google Play.
