Proven Performance. Founded by a group of global PV industry pioneers headed by David Ding in 2011, Growatt offers a wide range of good quality, reliable solar inverters aiming to build a greener future. Learn why thousands of Queenslanders continue to choose Springers Solar.

How much does a Growatt inverter cost in Australia?

In Australia, price often drives the decision. Here's a snapshot: Growatt: Typically more affordable. Solis: Slightly pricier but offers advanced features. Growatt 10kW inverter: \$5,500 AUD. Solis 10kW inverter: \$5,800 - \$6,000 AUD. Both inverters have similar specs, but here are some highlights: Efficiency up to 99%.

Do Growatt inverters need repair?

Growatt Inverters are specialised equipment that require expert repairs in order to continue to work at peak efficiency after a fault has occurred. At Solargain, we've developed thorough Growatt inverter service procedures that ensure your inverter is repaired quickly, correctly and in the most cost-effective manner.

Does Growatt offer a warranty on a faulty solar inverter?

Growatt inverters are covered by a 5-year warranty, which means that, if your inverter is less than five years old and displays an Error 117 message, Growatt will replace it for free. Please note: that this does not include the cost of having a solar expert visit your property, remove your faulty inverter and install the new one.

Should I install a Growatt EV charger?

If you already own a Growatt inverter, it is recommended that you install a Growatt EV charger. This allows the charge data to be monitored on the same app as your solar production. As a global leader in volume and with an extensive after-sales network, Growatt is definitely worth considering.
