

How to monitor a Growatt inverter and datalogger?

To monitor your Growatt inverter and datalogger, you need a monitoring device that connects them to the internet. This can be a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box. Additionally, you need a smartphone running on iOS or Android to use the ShinePhone app, which is available for free on the App Store or Google Play Store.

What types of inverters does the Growatt app support?

The ShinePhone app supports all Growatt inverters, including grid-tie, off-grid, hybrid, and storage inverters. To use the app, you'll need a monitoring device that connects your inverter or datalogger to the internet, such as a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box.

What is the Growatt monitoring app?

The Growatt monitoring app is a mobile application that connects to the Growatt monitoring platform and allows you to access your inverter data anytime, anywhere. It is ready to take the next step after you've set up your myenergi devices, such as the Zappi EV Electric Vehicle Chargers and the Eddi.

How can I remotely monitor a Growatt inverter?

Growatt inverters can be remotely monitored via a Mobile phone app, such as ShinePhone. ShinePhone allows remote access from a mobile phone to the Growatt server, enabling you to monitor inverter or system performances.

What can I manage on my Growatt inverter account?

On your Growatt inverter account, you can manage multiple devices such as inverters, batteries, dataloggers, etc. You can also share your devices with other users or transfer them to other accounts.

How do I set up the shinephone app with my Growatt inverter?

To set up the ShinePhone app with your Growatt inverter, follow these steps: Download and install the ShinePhone app on your smartphone from the Apple App Store or Google Play Store. Register an account on the app by entering your email address and password.
