

What is the Growatt installer code?

The Growatt Installer Code is a key initiative for our partners. Thanks to it, installers not only identify their projects, but also gain access to customized offers, preferential terms for equipment purchases and technical support. This tool is designed to make installers more efficient and support their success.

What is the warranty on a Growatt inverter?

This Warranty contains 10 years standard factory warranty and Growatt service commitment. This commitment includes defects of design, components, and manufacturing. For Growatt inverters confirmed faulty during the warranty period, Growatt will cover the replacement up to \$150 incl. GST labor cost.

How do I connect my Growatt inverter?

Copy your inverter serial number & username from the home page. Navigate to Settings -> My Equipment -> Connect your Solar /Battery equipment. Note: for sites with multiple Growatt inverters, you only need to provide the serial number for one of the inverters in your account.

How to check Growatt product warranty?

Warranty for OEM product should comply with the contract. Check your Growatt product warranty, extend coverage, and access service commitments for solar inverters and energy storage systems. You can check your product warranty and claim it on Growatt website.

Does Growatt cover a faulty inverter?

This commitment includes defects of design, components, and manufacturing. For Growatt inverters confirmed faulty during the warranty period, Growatt will cover the replacement up to \$150 incl. GST labor cost. All Growatt inverter models except for off-grid inverters are qualified to apply for this 10-year warranty.

Do I need a serial number for a Growatt inverter?

Note: for sites with multiple Growatt inverters, you only need to provide the serial number for one of the inverters in your account. It doesn't matter which one you choose. You will receive a confirmation message on the screen indicating your connection request is pending activation.
