

How do I connect my Growatt inverter to WiFi?

Ensure your inverter is powered on and properly installed. Locate the WiFi module (dongle) at the back of the inverter. If your inverter doesn't have a WiFi module, you will need to purchase a compatible Growatt WiFi dongle. 2. Download the Growatt ShinePhone App Install the ShinePhone App from the App Store (iOS) or Google Play (Android).

How to install a Growatt solar inverter?

To do this, take the following actions: 1. Find the Growatt solar inverter location. Usually, it is placed in a handy spot for maintenance or next to your solar panels. 2. Launch one of the web browsers, such as Chrome, Firefox, or Safari, on a PC or mobile device. 3. Type your inverter's IP address into the address bar of your browser.

What is Growatt shinewifi-X?

Growatt ShineWiFi-X is a WiFi dongle designed for connecting Growatt inverters to your home's WiFi network. This device allows you to monitor your solar energy production remotely through the ShinePhone app. The ShineWiFi-X utilizes a 2.4GHz connection, enabling you to easily integrate your inverter system with your existing WiFi setup.

How do I know if my Growatt inverter is working?

Ensure the inverter is ON and operating- Check that your Growatt inverter is powered on and generating energy. Verify your modem is ON and connected to the internet - Test your internet connection with another device to confirm it's working. Restart the inverter's Wi-Fi module - Turn off the Solar Supply Main Switch located in your meter box.

How do I connect a WiFi module to my inverter?

Plug the WiFi module into the RS232 port of the inverter. If the RS232 port has a DIP switch, set DIP1 to 1. Then, connect to the wireless network emitted by the WiFi module using your computer. The network name/SSID is the serial number of the WiFi dongle, and the default password is 12345678.

How do I set up Wi-Fi on my inverter?

Locate the "Settings" or "Configuration" menu in the user interface. Depending on the type of your inverter, the precise placement may change; however, it is often located in the main menu. 3. There should be a "Wi-Fi" or "Network Settings" option under the "Settings" or "Configuration" menu. To view the Wi-Fi setup page, click on it.
