

What is a Growatt solar inverter?

A Growatt solar inverter is a robust inverter with a maximum efficiency of 97.6% and a wide input voltage range. Growatt provides outcall technical support for repairs.

What is the power capacity of a Growatt inverter?

Growatt inverters have a power capacity that ranges from 1 kW to 100 kW for on-grid inverters, and from 1 kW to 630 kW for off-grid and storage inverters. Growatt inverters are ideal for roof-mounted solar panel arrays, where they convert the DC power generated into AC power for use.

Where is Growatt USA located?

Max. Charging Current GROWATT USA INC. Address: 9227 Reseda Blvd. #435 Northridge, CA 91324.

SPI series water pump inverter is used to convert the DC power from the solar panel to a single or three phases AC power and then drives motors to draw water from deep wells, rivers, lakes and other water sources. It can be used for agriculture irrigation, fountains, groundwater areas, etc.
