

Who is Guangzhou great power energy & technology?

Established in 2001 and listed on the Shenzhen Stock Exchange, Guangzhou Great Power Energy & Technology is a global leader in battery manufacturing. Specializing in lithium-ion, solid-state, and sodium-ion technologies, it serves energy storage, new energy vehicles, and electronics markets in over 50 countries.

Who is great power?

Great Power is a world-class battery manufacturer that was established in 2001 and listed on the stock market in 2015 in China (stock code: 300438). The company has over 20 years of experience specializing in lithium-ion battery manufacturing, research, and development.

What makes great power a great battery company?

Great Power's product portfolio encompasses multiple battery technologies, demonstrating its technical capabilities across various applications. Their lithium-ion batteries feature advanced materials and manufacturing processes, achieving energy efficiency rates of 97% and extended calendar life of up to 25 years.

Is great power a Tier 1 battery manufacturer?

Recognized by BloombergNEF as a Tier 1 manufacturer, Great Power emphasizes innovation and safety. Guangzhou Great Power Energy & Technology Co., Ltd., established in 2001 and listed on the Shenzhen Stock Exchange in 2015 (stock code: 300438), ranks among the world's leading battery manufacturers.

Why should you choose GPB Lithium Power Sport batteries?

GPB Lithium Power Sport Batteries offers a complete line of batteries to meet all of your power sports requirements.

- o Good charging acceptance and vibration resistant performance.
- o Advanced calcium lead alloy technology, maintenance-free design.
- o The 100% sealed battery is trouble-free and requires zero maintenance throughout its lifespan.

What is a GPG battery?

The GPG series products are manufactured with nano silica gel technology, one of the two valve-regulated battery production technologies used in the industry, and have porous PVC separators and colloidal electrolyte inside. This series can work under high and low temperature, supports cyclic deep discharge, and has a long service life.
