

What is a Harbor Freight portable power station?

Harbor Freight portable power stations are ideal for camping, road trips, emergencies and more. Up to 1800 watts of continuous power and 3600 watt peak output.

How many Watts Does a portable power station run?

The Portable Power Stations will be available in a variety of running watts - 350W, 600W, 1200W, and 2000W. For fast solar charging, the Portable Power Stations have a built-in high efficiency maximum power point tracking (MPPT) solar controller. The Battery Management System (BMS) protects against overheating, overloading, and overcharging.

How does a portable power station work?

For fast solar charging, the Portable Power Stations have a built-in high efficiency maximum power point tracking (MPPT) solar controller. The Battery Management System (BMS) protects against overheating, overloading, and overcharging. Pass-through charging allows devices to operate while the power station is charging.

When will a predator 350W portable power station be available?

The PREDATOR 350W Portable Power Station will be available in stores and online in mid-December. The 600W, 1200W, and 2000W will be available early 2025. They will only be available at Harbor Freight. Members of the Harbor Freight team are available for media interviews onsite at SEMA.

How many solar panels can a predator power station support?

Recharge times may vary significantly based on weather, latitude, time of year, temperature, orientation, and other factors. The PREDATOR 350 and 600 Power Stations can accept one Solar Panel with the included cables. The 1200 and 2000 Power Stations can support up to 4 Solar Panels with the included cables.

Which MC4 & 7909 connectors are compatible with my portable power station?

Compatible with most portable power station brands using the included MC4 and 7909 (8 mm) connectors. Check your power station's owner's manual to confirm requirements. Product Features MONOCRYSTALLINE SOLAR CELL TECHNOLOGY for maximum efficiency, power output, and longevity
