

Is Horizon solar power a good company?

Note: Customers under a power purchase agreement are responsible for installing and maintaining their own system. Horizon Solar Power is accredited by the BBB and holds an A- rating from the company. Horizon Solar Power provides customers with excellent customer service, a variety of purchasing options, and a lucrative referral program.

Does horizon solar power install solar panels?

Horizon Solar Power provides customized solar panel installation for residential and commercial customers and is a part of the process from start to finish. To begin your solar project, Horizon Solar conducts a free in-home consultation that analyzes your home's energy needs and infrastructure to determine if your home is compatible with solar.

What is Horizon Solar?

Horizon Solar is a privately owned company since 1998 that specializes in offering turn-key solar systems which meet the energy needs and financial goals of customers. Since 2010, they have installed more than a thousand residential installations.

What financing options does horizon solar power offer?

Horizon Solar Power offers customers the choice of four purchasing options to help finance their solar energy system. Customers who choose to purchase their system outright assume full responsibility of the system but don't owe a monthly payment to Horizon. Solar loan customers owe a set monthly payment to assume full ownership of the system.

How long does horizon solar power last?

Horizon Solar Power follows a similar installation process when working with commercial clients and helps maximize their savings by designing a system unique to each business. Horizon guarantees the performance of its commercial systems for 20 years. What Are the Purchasing Options at Horizon Solar Power?

Why did horizon solar power merge with Horizon solar power?

The merger expanded Horizon Solar Power's sales strategies and helped align both companies to better serve their customers. As a leading California solar installer, Horizon is committed to customizing solar systems across the state.
