How to play scp containment breach solo

Should I play Modder of SCP Containment Breach blind?

Modder of SCP Containment breach. But we don't need a guide. The game is best played blind. Plus,it's more fun figuring it all out when you're stuck. Considering the game is randomly generated,this is all pretty useless. You could easily get to Gate B without finding the computer ANYWHERE. Besides,Cpbald has a point. Playing it blind is better.

What is SCP - Containment Breach?

SCP - Containment Breach is a free survival horror gamebased on the works of the SCP Foundation community. It is based on the SCP Foundation wiki.

What is SCP Breach mode?

Breach Mode is the popular and common game mode majority of public servers will play in. Similar to SCP Secret Laboratory,Breach Mode is essentially an reeactment of a containment breach in a SCP Foundation facility while the Chaos Insurgency starts an attack. There are 3 teams,Security,Class-D (Team) and SCP.

What happens when SCP-173 blinks?

Blinking is a basic mechanic in SCP - Containment Breach. With each blink,SCP-173 will come closer to the player. The player can blink manually by pressing the spacebar,and the blink bar in the HUD measures this mechanic.

How do you avoid being attacked by SCP-173?

To avoid being attacked by SCP-173,maintain eye contact and distance with itduring the intro scene until it attacks the guards. Contrary to popular belief,immediately leaving the containment room has no effect on whether or not SCP-173 will target the player; only when the player is too close to it will it attack them.

What happens when SCP-173 moves close to the player?

The noise is more likely to play if 173 moves within close-range of the player. 173's appearance may be coupled with a very loud noise,meant to scare the player but doubling as an indicator that it is assuredly present (in the case of it not being immediately visible but,say,around a corner).
