Can google maps help electric car drivers find charging stations?

Google Maps has new features to help electric car drivers find charging stations. You can now see detailed descriptions of where chargers are located, like 'Enter the underground parking lot and follow the signs toward the exit.'

Should you get a free EV charging station?

But if you suddenly find yourself with a rapidly depleting battery, and a car that needs 40-plus minutes of charging before you can get back on the road, it pays to be able to find an EV charging station as quickly as you can. Heck, you might even be able to find a free EV charger, saving some extra money in the process.

Are EV charging stations hard to find?

After all, unlike gas stations, EV charging stations don't advertise themselves with enormous signs. Thankfully, finding an EV charger isn't too difficult if you know where to look, and it's a skill that'll only get more useful with time.

How do I add EV charging stations?

Add EV Charging Stations Zoom in on the map and click on station markers to review details. Ensure compatibility with your vehicle, then click "Add to Trip" to include it. Repeat the process to add additional charging stops.

It is also important to make sure your car can actually use the charging stations you plan to stop at. Some chargers might not be compatible with the charging port on older EV models, though this is increasingly rare.

...
