

What is the best solar incentive in Idaho?

The best solar incentive in Idaho is the combination of the state tax rebate with the Federal Solar Investment Tax Credit. We will provide the details on these programs and some local incentives to help you see why the push to solar power is such a smart move.

Does Idaho have a solar tax credit?

As a provision of the recently-passed Inflation Reduction Act, this 30% tax credit has been extended through the end of 2032. Idaho has a strong state-level program called the Residential Alternative Energy Tax Deduction. This allows payers to save up to 40% of the cost of their home's solar, wind, and geothermal power installations.

Are solar panels expensive in Idaho?

Solar panel systems in Idaho are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment. Here's how you can lower the cost of solar if you live in Idaho.

Are solar panels tax deductible in Idaho?

This is one of the stronger programs in the industry and one that is well worth considering. There is no tax credit for a residential solar system purchase in Idaho. This means that you will still be subject to the sales tax rate of 6.50% for your new solar power system purchases.

Are there solar incentives for nonprofit organizations in Idaho?

The Commercial Idaho solar incentives are strong and will allow for a few extra benefits and loan programs that the residential programs do not offer. If a solar panel system could help your company or business with its green initiatives, Idaho is an excellent place to be. There are no specific solar incentives for nonprofit organizations in Idaho.

Should you get a federal credit for solar conversion in Idaho?

In Idaho, the state credit provides more potential value than the federal credit for solar conversion. However, the federal credit can still offer potential savings, averaging around \$7,800.
