

# Income tax exemption for solar power generation

How tax exemption for solar power in India works?

Let's see how tax exemption for solar power in India works. As disclosed above, the Income Tax Act of 1961 provides Tax exemption for solar power under Section 80-IA. The exemptions are covered under accelerated depreciation. Let's first see the Accelerated depreciation rate of Solar Panels.

Do solar power generating companies pay tax?

Under Section 80-IA of the Income Tax Act, 1961, solar power generating companies are granted a tax waiver on 100% of profits for ten assessment years from the initial assessment year. Additional exemptions cover sales tax, excise tax, and customs duty.

Do solar projects qualify for a tax holiday?

Projects involved in power generation, including solar power, can benefit from a tax holiday under Section 80-IA of the Income Tax Act. This provision allows for a 100% tax exemption on profits for any ten consecutive years within the first fifteen years of operation. This is a substantial incentive for large-scale solar projects. 3.

Are solar power projects tax deductible?

Benefits Under Section 80-IA Section 80-IA of the Income Tax Act provides tax holidays for renewable energy projects, including solar power systems. This benefit is particularly useful for large-scale installations by businesses and developers. Tax Holiday: Profits from solar power generation projects are exempt for 10 consecutive years.

What are the tax benefits of installing solar power systems?

Businesses installing solar power systems can avail of accelerated depreciation benefits under the Income Tax Act. This allows them to depreciate 40% of the asset's value in the first year, significantly reducing taxable income. This benefit was previously higher but has been rationalized in recent years. 2. Tax Holiday under Section 80-IA:
