

What is Innovative Power LLC?

Innovative Power LLC is a company that offers a wide variety of products and solutions for data center owners and operators to build, maintain and modernize their IT infrastructure. They partner with Schneider Electric and other leading equipment and software manufacturers to offer customers premier data center infrastructure products.

Who is ISP solar?

ISP Solar is a developer of renewable energy solutions, founded by a group of renowned Canadian inventors and social entrepreneurs. ISP is dedicated to delivering power and heat at the most economical prices.

How does ISP's solar technology improve solar performance?

The innovation uses immobile solar collectors incorporating conic reflective troughs that multiply sunrays by 20x, resulting in lower cost alternative to traditional solutions, while improving performance. ISP's technology makes solar deployments more compelling by providing a faster return on investment.
