

What is G/P type in gd200a series inverter?

GD200A series inverters can use G/P type. The available motor power of G type is smaller than that of P type. 0:G type is for constant torque loads, while 1:P type is for variable torque loads like fans and water pumps.

How do I install the gd200a series VFD?

GD200A series VFD Installation guidelines 4.2.3 Installation manner The VFD can be installed in two different ways, depending on the frame size: a) Wall mounting (for the 315G/355P and lower models) b) Flange mounting (for the 200G/220P and lower models). Some need optional flange installation board.

What is a goodrive200a series inverter?

Page 2 inverters Preface Goodrive200A Preface Thanks for choosing our products. Goodrive200A series inverters are newly-designed by our company for controlling asynchronous AC inductance motors.

What is the operation procedure of gd200a series VFD keypad?

Page 36 GD200A series VFD Keypad operation procedure Name Description LED off - the VFD will run in the forward direction FWD/REV LED on - the VFD will run in the reverse direction LED indicates keypad operation, terminal operation and remote communication control LED off -...

What is gd200a series VFD?

Goodrive200A series VFDs provide 1 channel high speed pulse input as the standard configuration. The pulse frequency range is 0.00-50.00kHz. Page 44 GD200A series VFD Function parameters Function Default Name Description Modify code value P00.07 does not equal to 6, but the setting step can only be the 1-15 steps.

How to set PID parameters in gd200a series VFD?

GD200A series VFD Basic operation instruction 7.10.1 General steps of PID parameters setting: a Ensure the gain P When ensure the gain P, firstly cancel the PID integration and derivation (set $T_i=0$ and $T_d=0$, see the PID parameter setting for detailed information) to make proportional adjustment is the only method to PID.
