

Why is inverter a must-have product in Malaysia?

Inverter is a must-have product for every company in Malaysia as it can help to save energy as well as the maintenance costs. The inverter acts as an electronic device that controls the torque and speed of the electric motor to operate efficiently within the desired amount of energy.

What types of inverters does invt offer?

Except for the inverters, INVT can also provide customers with PLC, HMI, servo and motion systems, wind power inverters, Static Var Generator (SVG) and photovoltaic inverters.

Do you need a solar inverter in Malaysia?

Save on utilities and improve your way of living with the right solar system in Malaysia. While all devices and electric grids running on electricity use AC; therefore, it's imperative you switch the solar power being generated through your system with an inverter. Here's what an inverter exactly does.

Who is speed drives & automation Sdn Bhd?

INVT, With our extensive range of electrical automation parts, expertise in automation projects, and reliable electronics repair services, Speed Drives & Automation Sdn Bhd aim to be your trusted partner for all your automation needs.

How many subsidiaries does invt have?

INVT is a national-level high-tech company with nine subsidiaries, whose business involves AC drive, industrial control, new energy, rail traction, servo and motion control, energy management, building intelligence system, etc.

What is a servo motor in Malaysia?

The inverter acts as an electronic device that controls the torque and speed of the electric motor to operate efficiently within the desired amount of energy. Ideal for high-precision positioning, servo motor in Malaysia is also important to ensure the right speed control and rotation.
