

Is there a solar roof option for the Ioniq 5?

IONIQ 5 can be equipped with an eco-friendly solar roof. This solar roof supports the vehicle's electric power source by collecting energy and transferring it to the battery pack, improving efficiency and preventing battery discharge while providing an additional driving range.

Does Hyundai Ioniq 5 have solar panels?

The chrome panel is covered in micro perforations, which allow light through when on, but looks like solid metal when off. However, the most intriguing exterior feature on the new Hyundai Ioniq 5 electric car is found on its roof. That feature is a solar panel roof option.

What is Hyundai Ioniq 5?

Hyundai has unveiled the IONIQ 5, an all-electric mid-size SUV that claims a sensational driving range of 480 kilometres if you choose the 72.6 kilowatt hour battery. It has the option of a solar panel roof to enhance its charging capacity, super-fast charging and - wait for it - two household plug sockets.

How fast is the Hyundai Ioniq 5?

All PE variations provide outstanding range, claims Hyundai, and can deliver a top speed of 185 km/h. The IONIQ 5 can also be equipped with an eco-friendly solar roof, which supports the vehicle's electric power source by collecting energy and transferring it to the battery pack, improving efficiency.

What is the Vision Roof of Ioniq 5?

The Vision Roof of IONIQ 5 provides the interior with a greater sense of openness as IONIQ 5's ceiling consists of one large glass panel without any support materials.

Why should I choose the Ioniq 5?

The Ioniq 5 offers customizable interior space and an optional Vision Roof with a large glass panel ceiling, providing a greater sense of openness. These features make it a standout choice among electric vehicles.

Das Solardach f&#252;r den Ioniq 5 soll laut Hyundai um die 205 Watt je Stunde Strom liefern. Wie viel davon tats&#228;chlich nutzbar sind, ist noch unbekannt. Gehen wir f&#252;r unsere Rechnung von der Leistung aus, die uns Hyundai ...
