I called IQ Solar for a warranty repair to a system they did not install. The company who installed it is now out of business. The issues have been nonstop with the inverter company but Danielle Martinez at IQ has been more than amazing. I am now going on my 3rd replacement to the original inverter in as many months.

IQ Power has been refreshing to deal with. Last August our bill was \$375, and now it was \$34. Needless to say I am very happy with the bill.
