

Is electric vehicle charging free?

Electric vehicle charging is not free, but some stations and programs let you top up at no cost. Here's how to save some cash when powering up your EV. With US gas prices topping \$5 per gallon, the option to charge up for free is a satisfying perk of owning an electric vehicle.

How can I find free EV charging stations?

Our favorite and possibly the simplest option to find free EV charging stations is Plugshare. It has a filter letting you remove all chargers that require payment, and there's a map dedicated to finding free EV charging stations.

Where can I find free electric car chargers?

Some highly populated shopping plazas and hotels offer free electric car chargers. For instance, Whole Foods stores have partnered with Blink Charging for free charging, although this was in effect back in 2019 and may no longer be the case. Many major hotel chains also offer free electric car charging.

Where can you get free car charging?

By and large, those seeking free charging will be restricted to a handful of location types. Some supermarkets, public car parks and car dealerships offer free charging to attract new customers - after all, a free charge could take several hours, as we'll discuss later.

How can I find electric vehicle charging options?

To find electric vehicle charging options, you can use apps such as PlugShare and EVPassport. These apps can tell you the location of a charger station and the type of charger it offers. They might also alert you when a location is offering free charging.

Is there an app to find free EV chargers?

There are countless apps out there designed to help you find EV charging stations. Our favorite, and possibly the simplest option, is Plugshare. The trick is to find the ones that let you filter by price, and have free or \$0 as some sort of option.
