

What is Kaleo solar power plant project?

The Volta River Authority (VRA) has completed its 13MWp Kaleo Solar Power Plant Project as part of Government's power expansion project in the Upper West Region. The project will boost VRA's power generation capacity, and reduce its carbon footprint by increasing non-fossil fuel generation.

Who financed the Kaleo solar power plant project?

The Kaleo Solar Power Plant project was executed by Elecnor S.A. from Spain, with Tractebel Engineering of Germany acting as the Project Consultant. The project was funded by KfW, a German Development Bank, through a Loan Agreement between the Government of Germany, and the Government of Ghana.

Who inaugurated the Kaleo solar power plant?

The Kaleo solar power plant was inaugurated on 23 August 2022 by Nana Addo Dankwa Akufo-Addo, the President of the Republic of Ghana. The inauguration ceremony took place at the solar park's 20.4 hectare site in the Nadowli Kaleo district of northwestern Ghana.

What is the capacity of the Kaleo solar park?

The 13 MWp solar park was financed with a loan from the German development agency Kreditanstalt für Wiederaufbau (KfW). The Volta River Authority (VRA) is officially commissioning the Kaleo solar photovoltaic power plant in northwestern Ghana.

Will Volta River Authority maintain Kaleo solar power plant?

Mr. Tutu Agyare promised Ghanaians that the Volta River Authority (VRA) will ensure effective maintenance of the Kaleo Solar Power Plant, as it is the Authority's custom, so electricity accessibility and reliability will be assured.

Why is the Kaleo solar PV plant important?

The Kaleo solar PV plant is important because it will help promote the advancement of science education, engineering and technological activities in the region, and expand the career opportunities of our youth.

Phase two of the Kaleo Solar Power Plant not only adds fifteen megawatts of clean energy to the national grid but also improves the quality of power supply in the Upper West ...

President Nana Addo Dankwa Akufo-Addo has commissioned the second phase of a Solar Power Plant project with an installed capacity of 15 Mega Watts of power (MWp) at Kaleo, in the Upper West Region.

Phase two of the Kaleo Solar Power Plant not only adds 15 megawatts of clean energy to the national grid, but also improves the quality of power supply in the Upper West ...

President Nana Akufo-Addo on Wednesday commissioned the second phase of the Solar Power Plant Project at Kaleo in the Upper West Region with an installed capacity of 15Mega Watts of power (MWp). The ...

President Akufo-Addo, on Wednesday (24 April), in a momentous ceremony held in Kaleo, officially inaugurated phase two of the Kaleo solar power plant, marking another ...

"Works has also commenced for the construction of phase II of the Kaleo plant to add 15Megawatt peak. When completed, it will make the region the largest contributor of solar energy to the national energy mix," he said. President ...

Volta Kaleo Solar PV Park 2 is a ground-mounted solar project. Development status The project got commissioned in August 2022. Contractors involved Elecnor was selected to ...

President Nana Addo Dankwa Akufo-Addo, on Wednesday, 24th April 2024, in a momentous ceremony held in Kaleo, officially inaugurated phase two of the Kaleo Solar Power ...

President Nana Addo Dankwa Akufo-Addo on Wednesday commissioned the second phase of the Solar Power Plant Project at Kaleo in the Upper West Region with an ...

The completion of the Kaleo Solar Power Plant is consistent with Ghana's Nationally Determined Contributions to addressing the effects of climate change.&quot; The 13 M ...

The project is the second utility-grid-connected solar project in the country. Together with the Lawra solar project commissioned by the President last year, the systems would provide a combined generating capacity of 22.8-megawatt ...

The 15MW phase two project brings the total capacity of the Kaleo Solar Power plant to 28MW after the President commissioned about 13MW in phase one about two years ago. Elecnor S.A. from Spain executed the project ...

The Kaleo solar photovoltaic power plant in Ghana has entered into operation. The Volta River Authority (VRA) officially commissioned the plant located in the northwestern part of the country. The Kaleo solar power plant ...

President Nana Addo Dankwa Akufo-Addo, on Wednesday, 24th April 2024, in a momentous ceremony held in Kaleo, officially inaugurated phase two of the Kaleo Solar Power Plant, marking another significant stride in ...

Kaleo solar power plant. 13 MWp Kaleo solar power plant which is Lawra solar power plant sister project is currently under construction by Elecnor in collaboration with the ...

The Volta River Authority (VRA) has completed its 13MWp Kaleo Solar Power Plant Project as part of Government's power expansion project in the Upper West Region. The ...

Work is progressing steadily on the 20.4 hectare land acquired to construct a 13 megawatts solar power plant at Kaleo in the Nadowli Kaleo District of the Upper West Region. When completed, the &#163;22.8 million plant is ...

Phase two of the Kaleo Solar Power Plant not only adds fifteen megawatts of clean energy to the national grid but also improves the quality of power supply in the Upper West Region. Furthermore, it is estimated to ...

The Volta River Authority's 13MW Solar Power Project at Kaleo has been successfully commissioned in Ghana. The solar plant in the Nadowli Kaleo District of the Upper West Region forms the first part of the Volta River ...

By Emmanuel Mensah-Abludo . President Akufo-Addo says the Kaleo Solar project is not just about providing electricity; it represents a fundamental shift towards ...
