

What is a Kehua string inverter?

Kehua is one of the first companies to develop and market high power string inverters. Kehua's 1500V/350kW inverter is currently the largest string inverter in the world in terms of single power. Since its launch in June last year, it has been highly recognized by customers and has won more than 2GW of bids.

Is Kehua a reputable inverter manufacturer?

Kehua is one of the few manufacturers in the world to offer a product and solution for all scenarios, covering a power range from 1kW-6.8MW with string, central, and central-distributed inverters.

Where does Kehua rank in the global PV inverter market?

According to IHS Markit's latest PV inverter market tracker report, Kehua ranked 9th among global suppliers in 2020. Global inverter shipments increased 35% to reach a total of over 170 GW in 2020, with the top three markets, China, the United States and India, accounting for over 50% of those shipments.

Who is Kehua solar inverter?

With 34 years of experience for renewable energy, Kehua began to implement the concept of PV + ESS for the Future. For now, Kehua has received the TOP 10 solar inverter brands used in term-loan financed projects from Bloomberg and No.5 world storage inverter supplier from IHS Markit.

What power range does Kehua's inverter portfolio cover?

Kehua's product portfolio incorporates string, central and central-distributed inverters, covering a power range from 1kW-6.8MW.

How much does a Kehua Solar System cost?

Kehua is also a well-known brand in the inverter market, and they produce a range of high-quality inverters. In terms of pricing, \$8700 for a 6.6kW solar system with Astroenergy panels and Kehua inverters is a reasonable offer, but it's important to consider the overall value of the system rather than just the price.
