

How do I report a faulty Kehua inverter?

To report a faulty Kehua inverter during the warranty period, please provide a brief error description and send your warranty card to Powerark Solar. If available, include pictures of damaged components to help process the warranty claim.

What is the Kehua warranty?

The Kehua warranty applies only to the original purchaser of the inverter and is non-transferable.

How do I compare Kehua inverters to other brands?

As for comparing Kehua inverters to other brands, there are many factors to consider, such as efficiency, reliability, warranty, and customer support. It's difficult to make a direct comparison without knowing the specific models of the inverters being offered in your quote.

How do I contact Kehua customer service?

Contact our customer service team via email at [service@kehua.com](mailto:service@kehua.com) or through our warranty claim form for assistance. How do I provide feedback or suggestions for improving your products or website? We welcome feedback and suggestions for improving our products and website. Feel free to reach out to us with your thoughts: [marketing@kehua.com](mailto:marketing@kehua.com)

What power range does Kehua's inverter portfolio cover?

Kehua's product portfolio incorporates string, central and central-distributed inverters, covering a power range from 1kW-6.8MW.

How much does a Kehua Solar System cost?

Kehua is also a well-known brand in the inverter market, and they produce a range of high-quality inverters. In terms of pricing, \$8700 for a 6.6kW solar system with Astroenergy panels and Kehua inverters is a reasonable offer, but it's important to consider the overall value of the system rather than just the price.
