

Who is Kehua digital energy?

3. Measured data Kehua Digital Energy, with 36 years of power electronics expertise, offers comprehensive solutions in photovoltaics, energy storage, and microgrids. With installations exceeding 46GW in PV and 15.2GW/8.2GWh in energy storage globally, Kehua is a Tier 1 clean energy provider committed to promoting a zero-carbon future.

What happens if a Kehua inverter is damaged?

Any device damage caused by violating the general safety operation requirements or safety standards of design, production, and usage will be out of Kehua's guarantee range. Don't touch terminals or conductors that connected with grid to avoid lethal risk! There is no operational part inside the inverter.

How do I contact Kehua customer service?

Contact our customer service team via email at [service@kehua.com](mailto:service@kehua.com) or through our warranty claim form for assistance. How do I provide feedback or suggestions for improving your products or website? We welcome feedback and suggestions for improving our products and website. Feel free to reach out to us with your thoughts: [marketing@kehua.com](mailto:marketing@kehua.com)

How to set up a solar inverter with a WiFi router?

You need to be within sufficient range of a WiFi router. The signal strength is crucial here - if your router is miles away from your solar inverter, this will be a challenging task. Before you dive into the setup, it's critical to have the necessary tools at your disposal. You'll need your WiFi router's name (SSID) and password.

How do I connect a PV Grid connected inverter?

PV Grid-Connected Inverter SPI-B2 Series (1500-6000) User Manual 3 Installation Guide 3.5.5 WIFI/GPRS Connection If the inverter is equipped with WIFI/GPRS, insert it to the WIFI/GPRS port (as shown in Figure3-25 ) to monitor on the internet. The monitor way is as shown in Figure3-26.

What do I need to install a solar inverter?

You'll need your WiFi router's name (SSID) and password. You also need access to your solar inverter and its associated manual. If you're not sure about the whereabouts of your manual, fear not. More times than not, you can find a digital copy with a quick online search.

Use the search bar or browse our product categories to easily navigate our website and find the information you need. How can I contact your customer service team for assistance? Contact our customer service team via email at ...

PV strings are connected to inverter, and do the max. power point tracking for PV strings through the two-groups of MPPT circuits inside inverter, and then convert the DC ...
