

What is Kehua PV inverter?

KEHUA PV inverter products consist of string inverter, central inverter and central-distributed inverter which cover power range from 1kW-6.8MW, it is one of the few enterprises in the world that has a full range product and solution for all scenarios. About KEHUA

Is Kehua a reputable inverter manufacturer?

Kehua is one of the few manufacturers in the world to offer a product and solution for all scenarios, covering a power range from 1kW-6.8MW with string, central, and central-distributed inverters.

What is a Kehua string inverter?

Kehua is one of the first companies to develop and market high power string inverters. Kehua's 1500V/350kW inverter is currently the largest string inverter in the world in terms of single power. Since its launch in June last year, it has been highly recognized by customers and has won more than 2GW of bids.

What power range does Kehua's inverter portfolio cover?

Kehua's product portfolio incorporates string, central and central-distributed inverters, covering a power range from 1kW-6.8MW.

Where does Kehua rank in the global PV inverter market?

According to IHS Markit's latest PV inverter market tracker report, Kehua ranked 9th among global suppliers in 2020. Global inverter shipments increased 35% to reach a total of over 170 GW in 2020, with the top three markets, China, the United States and India, accounting for over 50% of those shipments.

What is Kehua 1500v/350kw inverter?

Kehua 1500V/350kW inverter adopts three-level design, which has lower current harmonics and improves power quality. The product can quickly respond to the primary frequency regulation of the grid and has night SVG function to reduce the investment cost of the power plant.
