

How do I set the baud rate of a Kehua inverter?

The baud rate of the inverter needs to be set through Kehua monitoring software WiseEnergy (for details, please refer to the About-User Manual in WiseEnergy). The default baud rate is 9600.

What happens if a Kehua inverter is damaged?

Any device damage caused by violating the general safety operation requirements or safety standards of design, production, and usage will be out of Kehua's guarantee range. Don't touch terminals or conductors that connected with grid to avoid lethal risk! There is no operational part inside the inverter.

Can I use Kehua company software for commercial purposes?

If any question, please contact our company. It is prohibited to use part or whole data of the hardware or software of Kehua Company in any way for commercial purpose. It is prohibited to decompile, decrypt or destroy the original program design of the software developed by Kehua Company.

How to ground Kehua wire?

Make sure that both of them are grounded reliably, otherwise Kehua Company will not be in charge of the responsibility for possible consequences. Strip the insulation layer of the grounding wire by crimping tool, and press it into the corresponding terminal, as shown in Figure 3-26.

Does Kehua Hengsheng provide quality assurance?

String PV Grid-tied Inverter SPI-B Series (100K-125K) User Manual B Quality Assurance All rights reserved  
Kehua Hengsheng Co., Ltd. 69 B Quality Assurance If the device fault in guarantee period, Kehua Hengsheng Co., Ltd. (hereinafter referred to as Kehua Company) will maintain it free or replace new product. Evidence

How do I connect a PV Grid connected inverter?

PV Grid-Connected Inverter SPI-B2 Series (1500-6000) User Manual 3 Installation Guide 3.5.5 WIFI/GPRS Connection If the inverter is equipped with WIFI/GPRS, insert it to the WIFI/GPRS port (as shown in Figure 3-25) to monitor on the internet. The monitor way is as shown in Figure 3-26.

This document gives a description of the inverter, including appearance, features, working principles, installation, electrical connection, operation, maintenance and storage, etc.
