

Does Moultrie have a solar power option?

Moultrie offers a 12-volt battery box with both a solar option and without. An external solar power panel is also available. These external power sources can keep your camera running much longer in the field when using the solar option. Make sure it gets as much direct sunlight as possible to keep your camera running without worry.

How can I power my Moultrie camera?

To power your Moultrie camera, you can use the Camera Power Panel, which needs 4 hours of sunlight to fully charge. Alternatively, extend the life of your camera in the field by using a long-lasting, rechargeable external power source. Plug the Battery Box into the Power Panel Plug to use this option.

What is a Moultrie game camera power panel?

The Moultrie Game Camera Power Panel is a solar panel combined with a 12 volt internal battery. It is compatible with all Moultrie 12 volt cameras manufactured after 2006, as well as the Moultrie mobile field modem. With a Y-splitter, it can power both the camera and the modem using a single solar panel.

What is a Moultrie 10W solar power pack?

Don't let battery changes slow you down. Upgrade your gear with the Moultrie 10W Universal Solar Power Pack and experience the freedom of continuous power for your trail cam, wildlife camera, and all your outdoor adventures. Moultrie Plastic 2.87" L x 11.13" W x 9.69" H High Efficiency MC3, USB-C 9.69" x 11.13" x 2.875"

How many batteries does a Moultrie camera need?

The Moultrie camera is powered by only four batteries, which are included in the kit. The "42i" version has an invisible flash and boasts a 42 megapixels resolution. As with most Moultrie cameras, the detection range is exceptional, but we have noticed an unusual number of false triggers.
