

How many electric car chargers are coming to pilot gas stations?

Battery- and gas-powered driving experiences are about to get a lot more similar with a new network of 2,000 electric vehicle chargers coming to 500 Pilot gas stations and rest stops from coast to coast.

Where can I get a GM EV fast charger?

The project was designed and funded in a four-way partnership between GM, Pilot, the US Department of Transportation, and charging company EVGo. The fast chargers are currently available in 13 states; find them via GM vehicle apps, Pilot's my Rewards Plus app, the EVgo app, as well as PlugShare and other apps designed for EV drivers.

Does GM have a pilot station?

The Pilot station partnership represents one portion of GM's \$750 million investment in charging infrastructure on its path to an "all-electric, zero-emissions future." For those who purchase a 2022 Chevy Bolt, the company will install a level two home charger for free.

How many fast charging stalls will pilot and Flying J have?

By the end of 2023, the group says at least 25 Pilot and Flying J travel centers will feature 100 fast charging stalls, with approximately 200 locations by the end of 2024. The plan is to ultimately launch 2,000 charging stalls at 500 Pilot and Flying J travel centers.

Will GM start making electric cars with Tesla's NACS charging port?

The following year it will start making its electric vehicles with Tesla's NACS charging port. EVgo has also committed to building fast charging stations with Tesla ports. GM is also one of seven major automakers that teamed up to develop another network that will launch in the US in summer 2024 and Canada at a later date.

What are GM 'Pilot Flying J' Travel Centers?

The stations, called "Pilot Flying J travel centers," will be open 24/7. Once drivers complete a one-time activation of GM's Plug and Charge feature within a mobile app, drivers can immediately plug in the cable and begin charging without tapping through the station's setup and payment screens.
