

Who makes Narada batteries?

LLC Narada, established in 1994 in Hangzhou, China, has developed into a significant manufacturer in the global battery industry. Operating as Zhejiang Narada Power Source Co., Ltd., the company designs, produces, and distributes various battery types, including lead-acid and lithium-ion solutions.

Are Narada batteries good?

Narada Batteries are some of the finest solar batteries in the market and have been widely used for a variety of setups. Check out the range of Narada Batteries and give our battery specialist team a call today to get the very best setup for you.

What is a Narada lithium iron battery?

The Narada lithium iron battery product series uses new LiFePO<sub>4</sub> technology. LiFePO<sub>4</sub> has been considered as one of the most popular cathode materials. Renewable energy including wind and solar power are increasingly being applied to grid and micro-grid applications but wind and solar power generated

Is Narada a battery recycling company?

In December, Anhui Narada Huabo New Material Technology Co., Ltd., a subsidiary of Narada, was listed on the white list of battery recycling. In June, Narada strengthened the industrial integration layout and invested in the construction of Yangzhou Narada intelligent energy storage system integration base.

What is a Narada high temperature front access battery?

The Narada High Temperature Front Access VRLA batteries provide superior battery life in applications with a nominal operating temperature of 35°C. These batteries are ideally suited for telecom base station, OSP, and renewable energy applications.

How did Narada develop a solid-state lithium battery?

In late 2024, Narada signed a strategic agreement with Talent New Energy to advance solid-state battery applications. Their Zhejiang Provincial Key R&D Program successfully developed high-energy-density solid-state lithium batteries and established a pilot manufacturing line.
