Is Nerd Power a good company to work for?

Nerd Power is a great company with a great mission: helping homeowners reduce their energy leakage before producing energy through solar. The CEO is a down-to-earth and humble person, and the entire staff is like family, from California to Texas. Join The Dream Team at Nerd Power.

How does NERD Power work?

NERD Power works by designing a solar system based on a customer's wisely reduced usage. They didn't just design a system for past historical usage, but advised and helped reduce current usage to ensure the system would be more than enough.

How long did Nerd Power take?

The process with Nerd Power took over six months and still had not been completed. The homeowner had to call for status updates and even contacted the electric company to obtain information. The representative blamed the city and utility company for the delay, but it is Nerd Power's responsibility to ensure the project moves forward.

How do I choose a NERD Power company?

When choosing a NERD Power company, it's important to consider all the complaints before making a decision. Their responses to complaints or concerns can be indifferent at best. Be prepared for a lack of communication, with contacts that may ghost you and a lack of accountability.

How long did it take Nerd Power to fix a broken inverter?

It took Nerd Power over a month to repair a broken inverter after being informed of the issue. However, they did not install a more powerful inverter as promised, and the inverter broke again 4 months later.
