

What is Nerd Power?

Nerd Power is a company dedicated to reducing energy consumption in homes and businesses through the use of cutting edge efficiency products and renewable energy sources. Mission: To attract the best Nerds on the planet and provide innovative solutions that reduce energy consumption and produce clean, renewable energy.

How long did Nerd Power take?

The process with Nerd Power took over six months and still had not been completed. The homeowner had to call for status updates and even contacted the electric company to obtain information. The representative blamed the city and utility company for the delay, but it is Nerd Power's responsibility to ensure the project moves forward.

How do I choose a NERD Power company?

When choosing a NERD Power company, it's important to consider all the complaints before making a decision. Their responses to complaints or concerns can be indifferent at best. Be prepared for a lack of communication, with contacts that may ghost you and a lack of accountability.

What is a solar-powered irrigation system?

A solar-powered irrigation system is an answer to areas with no or unreliable access to water. The different components of farming, from the pump to the plant, are integrated and harmonized. From its title alone, it's an automatic irrigation system running on solar energy through photovoltaic or solar [...].

How long did it take Nerd Power to fix a broken inverter?

It took Nerd Power over a month to repair a broken inverter after being informed of the issue. However, they did not install a more powerful inverter as promised, and the inverter broke again 4 months later.

Should you buy a solar power bank?

As we rely increasingly on our tech devices in our daily lives, we may find that the battery lives of our devices cannot keep up with our needs and demands so a solar power bank is a great solution.
