

Does New Mexico have a solar investment tax credit?

The federal solar investment tax credit (ITC) is the most significant way to reduce the cost of going solar in New Mexico. If you install a solar panel system by the end of 2032, you will receive a federal income tax credit worth 30% of your system's total cost. The federal solar investment tax credit drops to 26% in 2033 and 22% in 2034.

How much does a solar system cost in New Mexico?

The Residential Clean Energy Credit, formerly known as the federal investment tax credit (ITC), can reduce your solar panel system's cost by 30%. Your entire system qualifies for this incentive, including equipment, labor, permitting, and sales tax. The average cost for a 5 kW solar panel system is around \$15,540 in New Mexico.

Are solar panels tax deductible in New Mexico?

In addition to the great rebates and incentives above, New Mexico also offers tax exemptions for solar panel systems. The solar property tax exemption means you don't need to pay a higher property tax for adding solar panels to your house.

Are solar panels a good investment in New Mexico?

Solar panel systems in New Mexico are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

What are the best solar panel incentives in New Mexico?

If you connect your solar panel system to the grid, you can benefit from net metering, one of the best solar panel incentives available in New Mexico. With net metering, you earn credits when you send excess electricity from your solar panels to the grid.

What is the solar market development tax credit (smdtc)?

The Solar Market Development Tax Credit (SMDTC) allows solar owners to earn a tax credit equal to 10% of the costs of equipment, materials, and labor for a solar energy system, up to \$6,000. Solar energy systems must be certified by the New Mexico Energy, Minerals, and Natural Resources Department (EMNRD) to be eligible for this tax credit.
