

How much does solar cost in New Jersey?

There's no initial charge for any solar equipment, installation or permit. CleanChoice Energy offers a straightforward way for New Jersey residents to support renewable energy without any major disruptions to their electricity service. It's easy to get started since you don't have to actually install anything on your roof.

Who are the best solar companies in New Jersey?

Want your company to be on this guide? New Jersey's top solar companies are Sunrun, CleanChoice Energy and Momentum Solar. Compare local reviews, energy equipment, warranties and more.

Are solar panels worth it in New Jersey?

That said, The Garden State sees an average of 206 sunny days a year (the national average is 205), making solar well worth it in New Jersey. That also means you could probably save money by picking a middle-of-the-line solar panel brand, like REC or Qcells and still be satisfied with your solar energy production.

Should you go solar in New Jersey?

"Going solar was one of the best decisions I've made recently," Michael in Newton, New Jersey, told us. He expects more people to make the same decision because of high electricity prices. Over 25 years, solar can save a typical New Jersey homeowner \$76,285 in avoided utility costs.
