The fuller your car battery is, the slower it charges. We advise to only charge your vehicle to 80% because after this your car charges significantly slower. Charging only to 80% also helps to preserve your batteries lifespan. Hot or cold weather can also impact the charge speed. If it is cold, the car will charge slower to protect the battery.

Fast: We use "fast" to describe our 3kW AC, 7kW AC and 22kW AC chargers Rapid: Our "rapid" range includes 49kW AC, 50kW DC and 75kW DC chargers Ultrafast: Enjoy charging power of up to 150kW or 300kW with our ...
