

Who owns OCI Solar Energy (Mission Solar)?

OCI Enterprises Inc., a U.S. holding company of OCI Company, founded in Seoul, South Korea in 1959, operates Mission Solar Energy LLC and OCI Solar Power LLC in San Antonio, Texas, providing a fully integrated system for utility scale and distributed generation projects.

Who is OCI energy?

Headquartered in San Antonio since 2012, OCI Energy has been at the forefront of the renewable energy industry, becoming one of the first companies to develop utility-scale solar projects in Texas. Over the years, OCI Energy has built a robust portfolio of successful projects, earning a reputation for reliability and excellence.

Where is OCI solar power located?

These projects began operations between 2012 and 2019. Additionally, OCI Solar Power has established a development pipeline in excess of 2 GW of projects located throughout the state, including in Bell, Dickens, Falls, Hill, Kent, La Salle, McClennan, and Wharton counties.

Why did OCI energy rebrand?

"Our rebranding reflects our commitment to diversifying our offerings and advancing sustainable energy solutions for a brighter future." Headquartered in San Antonio since 2012, OCI Energy has been at the forefront of the renewable energy industry, becoming one of the first companies to develop utility-scale solar projects in Texas.

What happened to OCI solar power?

In 2021, Buckeye Partners, L.P. acquired OCI Solar Power's construction-ready Project Parker. The 200 MWac project located in Falls County is now supplying electricity to the ERCOT electrical grid. Last year, OCI Solar Power sold its construction-ready Project SunRay to Israel-based Arava Power and Paz Oil.

How many MWAC does OCI solar power have?

OCI Solar Power previously developed 500 MWac in collaboration with CPS Energy, the nation's largest public power, natural gas, and electric company. These projects began operations between 2012 and 2019.
