How to choose an outdoor EV charger?

Installing an outdoor electric vehicle (EV) charger requires top safety priority. Weatherproofing, electrical safety certifications, and professional installation are key. They ensure a safe and reliable home EV charging setup. Outdoor EV chargers must face the elements head-on. Look for units with a Type 4X rating.

Is an outdoor EV charging station right for You?

An outdoor charger is far less expensive and easier to install yourself. The downside is that once it's out there in the rain and snow, it's susceptible to rust and damage from regular use. If money is no object or you live in an area with temperate weather all year long, an outdoor EV charging station might be right for you.

How do I install an outdoor electric vehicle charger?

Choose a spot for your outdoor electric vehicle charger that's easy to reach and has enough space. Get any needed permits from your local government for the EV charging station installation. Run the electrical wiring from your main panel to the charger spot, using the right cable size.

Are outdoor charging stations safe?

High-performance outdoor chargers provide a safeplace for your electric vehicle to charge. However,the inlet pipes of the charging station may still be exposed and could be subject to damage from physical impacts,water intrusion,or electrical surges.

Should you install a home EV charging station?

"Installing a home EV charging station can result in significant long-term savingscompared to using public charging stations or gas-powered vehicles." Installing an outdoor EV charger makes charging your electric vehicle easy and convenient. It's important to plan well,get professional help,and think about safety and weatherproofing.

Should you install an electric car charging station outside?

If you live in a place that gets snowy in the winter, wet in the summer, or just plain hot, you may be concerned about charging your electric car outside. If so, you are not alone. Fortunately for residents and business owners alike, installing an outdoor charging station does not have to be a death sentence for your battery.
