

What is a photon solar charger?

Equipped with 5 small solar panels featuring high-efficiency photovoltaic cells and an integrated powerful power bank with a USB port, the Photon is not only an eco-friendly and compact solar charger, but also a versatile solar power source to charge your smartphone, camera, and all your other electronic devices during your outdoor adventures.

What is a solar power bank?

A solar power bank is a portable device that can charge small appliances using solar energy. Jackery portable power banks are a popular choice when you're away from electricity, whether for an office trip or a family camping adventure.

Why should you buy a photon solar panel?

The foldable solar panels of the Photon add to its portability, allowing for easy and convenient transportation. Whether you're hiking, camping, or traveling, the Photon unfolds quickly to capture available solar energy and convert it into usable electricity.
