

What is a solar power purchase agreement?

A solar power purchase agreement (PPA) is an arrangement where a solar company installs and maintains a renewable energy system on a home, selling the generated power to the homeowner at a low rate. This is one of the many solar energy arrangements, often referred to as 'solar'.

How does a Power Purchase Agreement (PPA) work?

In a Power Purchase Agreement (PPA), the installer retains ownership of the solar system and charges a fixed rate for the electricity it produces. The PPA provider will bill you every month for the energy you use, similar to your electricity utility.

Do solar power purchase agreements make economic sense for campus solar deployment?

Solar power purchase agreements (PPAs) have facilitated more than 100 megawatts (MW) of solar deployment on campuses around the country. This brochure provides guidance to universities on the process of using PPAs and how PPAs can make economic sense for campus solar deployment.

What are Solar Power Purchase Agreements (SPPAs)?

Solar Power Purchase Agreements (SPPAs) enable the host customer to avoid many of the traditional barriers to the installation of on-site solar systems. These barriers include high upfront capital costs, system performance risk, and complex design and permitting processes. Additionally, SPPA arrangements can be cash flow positive for the host customer from the day the system is commissioned.

Who covers the costs of buying solar equipment in a PPA?

In a power purchase agreement (PPA), a solar company or PPA financier covers all the costs of buying solar equipment and installing it on your roof. Financing a solar panel system with a PPA is similar to leasing or "renting" a solar panel system.

Can I own the solar system under a PPA?

Under a Power Purchase Agreement (PPA), you won't own the solar system. Instead, you are paying a provider for the energy you use. This means you won't get the benefits of owning a solar system, such as tax rebates or selling renewable energy credits to your utility.

The power purchase agreement (PPA) is a service/financial agreement under which a customer or host agrees under a contract to purchase power at a set price from a third-party project developer, also known as solar ...
