

How many Sealite Bridge Light heads can a solar module power?

The Sealite Bridge light power supplies are available individually and are suitable for powering up to 12 Sealite sector bridge light heads. The solar module has an adjustable mount which can be angled to maximise solar collection.

What is a bridge lighting kit?

Sealite's Bridge Lighting Kit is specifically designed to clearly mark bridges and structures extending over navigable waterways, and is used extensively throughout the USA. The kit includes large power supply and sector lantern (a range of extension arms and mounting assemblies are also available).

How do solar lights work?

The light head is attached to the power supply using heavy-duty cabling enabling the lights to be mounted in shaded areas while the solar panel can be positioned in full sunlight. The power supplies come complete with solar module and battery contained in a rugged, powder-coated aluminium housing.

Bridge Lights. Power Supplies; Lighting Kit; Sector Bridge Lights; 180 Degree Bridge Light; Barge Lights. Solar Lights; Battery Powered; Buoys. Spar Buoys; Illuminating Pencil Buoy; ... Used extensively throughout the ...

The SL-BRK features a large SL23 solar power supply (10 watt solar module with 7.5Ah SLA battery), positioned at the top of the assembly to maximise solar collection. The sector lantern is steady-on as standard but is available with ...

Product: 3-5nm Lights, Solar Panels, Power Supplies, Batteries, Mounting Hardware, Central Photoelectric Control Application: Fixed Bridge over Navigable Water ...

Our sector bridge lighting solutions are available in a 180 degree sector red model or 360 degree green model. The SL-BR has been designed to offer superior visibility with up to 4NM visible range and operates in ...
