

What are power up solar modules?

The Power Up line of rugged, outdoor solar modules offer today's highest efficiency solar cell technology combined with industrial design and construction. The impact resistant glass surface and robust anodized aluminum frame can easily mount to our line of optional pole mount brackets while providing years of reliable battery charging performance.

What or who is Power Up?

Power Up is the mid-atlantic's oldest grid-tie system integrator. We specialize in installing solar electric systems and accommodate both residential and commercial customers. Our team includes a NABCEP certified system designer and a licensed, master electrician. Power Up utilizes industry leading products and methods.

What is up Power Corporation Limited?

But first, let's understand UP Power Corporation Limited. It is a UP State Government-owned electricity distribution company (Discom) which is engaged in the business of transmission and distribution of power within the state. UPPCL was formed on January 14, 2000, by unbundling the Uttar Pradesh State Electricity Board into three separate entities:
