

What are power up solar modules?

The Power Up line of rugged, outdoor solar modules offer today's highest efficiency solar cell technology combined with industrial design and construction. The impact resistant glass surface and robust anodized aluminum frame can easily mount to our line of optional pole mount brackets while providing years of reliable battery charging performance.

What or who is Power Up?

Power Up is the mid-atlantic's oldest grid-tie system integrator. We specialize in installing solar electric systems and accommodate both residential and commercial customers. Our team includes a NABCEP certified system designer and a licensed, master electrician. Power Up utilizes industry leading products and methods.

Where can I buy Power Up products?

You can find Power Up products in stores throughout North America and on several online retailers. Power Up has an extensive network of dealers and distributors. For information about becoming one of our distributors, please contact us.
