

How can reel help with renewable electricity?

Simple steps to renewable electricity, with Reel. Reduce your emissions by buying electricity directly from a new solar or wind park. Share your electricity data with us in two minutes, and our algorithm suggests the perfect mix of solar and wind energy from Power Purchase Agreements (PPAs).

What are POWER REELS?

POWER REELS is a portable fitness product that offers a patented constant resistance system. Unlike traditional resistance bands and dumbbells, POWER REELS keeps muscles working throughout the entire exercise for faster results. Weighing around 2 pounds, it's easy to take with you to the gym or at home.

What makes reel a good PPA partner?

"Reel is a professional partner with great insight into how our business can get a competitive edge from a PPA, while also doing a real positive difference for the climate." Real data. Reel insights. We must find affordable, accelerated ways to expand carbon-free energy production. Innovative electricity contracts hold the key.

How can plastindustrien benefit from a partnership with Reel?

Members of Plastindustrien will now receive individually tailored energy purchasing solutions, based on buying electricity from new solar and wind parks. By collaborating with Reel, Combitherm is demonstrating greater environmental responsibility while strengthening their business position.
