

What is the Rocky Mountain Power wattsmart battery program?

With the new Rocky Mountain Power Wattsmart Battery Program, we are connecting with customers who want to take the journey with us to a more sustainable energy grid. HOW DOES IT WORK? This program uses renewable energy stored in customer-owned battery systems.

Does Rocky Mountain Power discharge batteries?

Rocky Mountain Power will not discharge customer batteries below 10%. The minimum percentage is continually being evaluated. Rocky Mountain Power recommends customers manage their battery usage to ensure there is sufficient backup power. Is there a study on how the program performs?

How does Rocky Mountain Power verify a battery?

Rocky Mountain Power verifies ability to communicate and dispatch the battery. Will participating in the program negatively impact my battery? Rocky Mountain Power will have the ability to turn the battery on and off, as such participation in the program should not negatively impact your battery beyond what it is designed to do.

Can Rocky Mountain Power turn my battery on and off?

Rocky Mountain Power will have the ability to turn the battery on and off, as such participation in the program should not negatively impact your battery beyond what it is designed to do. Please consult with the battery manufacturer to fully understand how their specific battery will perform over time.

Who is a good fit for Rocky Mountain Power?

Rocky Mountain Power's Wattsmart Battery Program is ideal for customers who are early adopters of technology, energy conscious, and want to make a positive impact on the environment with renewable energy. If these are things you're passionate about, this is a great way to be a part of a new program.

Is Rocky Mountain Power a residential or non-resident program?

Yes, residential and non-residential Rocky Mountain Power customers with electrical service in Utah, Idaho and Wyoming are eligible to participate in the program. Can I request to be removed from the program? Yes, customers can be removed from the program after providing 30-day advance notification to Rocky Mountain Power.
