

Does Rocky Mountain Power support subscriber solar?

Rocky Mountain Power supports the Subscriber Solar program, which allows customers to subscribe to shares of energy from a solar farm. They proposed a new rate schedule to expand this popular program, which has been sold out since its creation in 2017.

What is the website for Rocky Mountain Power?

You can contact Rocky Mountain Power at [www.rmppower.com](http://www.rmppower.com). You can also reach them by phone at 1-888-221-7070 or via the internet at [www.rmppower.com](http://www.rmppower.com).

How long does a subscriber solar subscription last?

Utah Subscriber Solar subscriptions last for up to 20 years. Subscribe in blocks of 200-kilowatt-hours (kWh) to offset your usage on your bill, or choose full coverage where all of your kWh is billed on the Subscriber Solar rate. Keep your subscription if you move to another site in Utah served by Rocky Mountain Power, as your solar blocks go with you.

Do I need a roof for subscriber solar?

No roof is required for the Subscriber Solar program. Customers can get some or all of their energy from solar power. If you are interested in subscribing or joining the waitlist if blocks are unavailable, please contact us at 1-844-813-3971.

How can I get solar power in Utah?

You can get solar power in Utah by subscribing to a 20-megawatt solar plant in Millard County. Choose between offsetting your usage on your bill with blocks of 200-kilowatt-hours (kWh), or opt for full coverage where all of your kWh is billed on the Subscriber Solar rate. Keep your subscription for up to 20 years.
