

How many EV fast-charging stations will Walmart and Sam's Club have?

By 2030, we intend to build our own EV fast-charging network at thousands of Walmart and Sam's Club locations coast-to-coast. This would be in addition to the almost 1,300 EV fast-charging stations we already have available at more than 280 U.S. facilities.

Will Walmart build an electric vehicle charging network?

Walmart plans to build an electric vehicle charging network with fast charging stations at thousands of its stores by 2030. Walmart says the EV charging stations will be placed at thousands of Walmart and Sam's Club stores, to help make EV ownership "more accessible, reliable, convenient and affordable."

Does Sam's Club charge a battery?

Free installation is available for most of the vehicle models and the purchase of a battery at Sam's Club is free of charge. However, some specialty batteries may add a small charge, but can be used by using them for a time when the laptop is plugged in.

Will Walmart & Sam's Club make electric vehicle ownership more affordable?

As our customers and members continue to look for ways to save money and live better, I am excited to announce our plans at Walmart and Sam's Club in the U.S. to make electric vehicle (EV) ownership more accessible, reliable, convenient and affordable for them across the country.

How many EV charging stations does Walmart have?

Walmart already offers 1,300 EV charging stations at over 280 stores in the US in partnership with Volkswagen subsidiary Electrify America. The planned new fast charging stations will be owned and run entirely by Walmart, a company spokesperson tells Reuters will help Walmart "address reliability and cost issues."

How many EV charging stations are there in the US?

As Reuters notes, the US currently has about 30,000 fast-charging stations that can fully charge an EV in an hour or less. EVs are taking off in popularity, and according to a forecast from consultancy firm AutoForecast Solutions, they could make up a third of the total on-road North American vehicles by 2029.
