What information does Schneider Electric offer?

Schneider Electric offers a variety of resources in their documentation and software downloads. You can find product environmental information, event details, online training courses, and documents, support information, certificates, CAD files, and software.

What is Liebert APS?

The Liebert APS is a full redundant design with no single point of failure that offers internal redundancy capability (N+2/20kVA) and enhances reliability. It provides multiple layers of protection, allowing the critical load to run on conditioned power even if there is a failure of any component.

APS will review the Customer provided documentation to determine if the design conforms to APS requirements. APS reserves the right to require diagrams submitted to be ...
