Founder of Protect Our Winters, Jones is a powerful environmental advocate who understands the importance of electrifying our grid with clean power.

Is simple power a good company to install solar panels?

Simple Power installed solar panels and a battery backup. Very knowledgeable, especially with the heavy sierra snow loads. SimpleSolar was easy to work with. While they may not be the cheapest option, the install is very clean and dressed nicely - not something I can say for my previous home solar install using a different installer.

Did simple power solar install a solar and battery backup system?

Simple Power Solar installed a solar and battery backup system for us. The entire process was very smooth and they took care of all the design, permits, HOA approvals, etc. The system was designed to meet the snow load requirements. Throughout the process we received timely updates and the system was installed on time.

Is simple solar a good company?

Simple Solar did a great job installing panels on our home in North Lake Tahoe. The process was easy and transparent. It took a while to get everything completed due to delays on the utility company side, but the Simple Solar folks were very responsive and helpful throughout the process. I would highly recommend them.

Is simple power a good company?

Krystal at Simple Power and Simple Power in general are great to work with. They respond quickly with all the information I need to make an informed decision on the work needed and complete it thoroughly and timely. Will continue to use them! I choose Simple Power for our solar panel installation and renewable energy management. I'm happy.
