What's your experience with smart energy?

Here is my experience with Smart Energy. Last week we had a nice door knocker from Smart Energy chat to us about our solar power and current bills. They explained that there is currently really good government grants available that could allow us to upgrade our current system for barely anything.

What is a smart solar panel & how does it work?

It's the same strategy that installers have used with backup generators for decades. A smart panel offers extra flexibility. It works like an air traffic controllerbetween your solar battery and your home's energy needs,monitoring your power usage and adjusting the power flow based on rules that you (or your installer) set in an app.
