

What is Solar SME?

Solar SME, Inc. is a nationwide Retailer/dealer of world-class solar solutions with industry-leading pricing. They specialize in engineering grid-tie packages, off-grid energy kits, and backup applications. Solar SME has technical support professionals to help you with buying and installing your system.

Is solar SME a legitimate solar panel installation company?

Solar SME is a legitimate solar panel installation company. It installs commercial and residential solar panel systems in eight states. Systems are backed by a 25-year workmanship warranty and a 25-year equipment warranty. Compare Solar SME on customer reviews, availability and payment options below.

Does solar SME manufacture its own equipment?

As a solar installer, Solar SME does not manufacture its own equipment. The company offers equipment from the following brands: Solar SME starts the process with a consultation and a site assessment to assess your needs and options. The company also provides a quote for your system (including equipment and installation).

What services does solar SME offer?

Solar SME offers 24/7 monitoring service post-installation. After your system is installed and active, Solar SME provides 24/7 system monitoring and ongoing maintenance services. This includes solar panel cleaning, efficiency checks and solar panel inspection.

Does Solar SME provide a free consultation?

At Solar SME, we offer free consultations, where our technical design team examines your property and discusses your solar goals. During the consultation, we give you the most accurate quote. Our team comes up with scientifically estimated and calculated facts and figures for your investment plan. In most cases, solar projects pay for themselves in less than 7 to 10 years.

What financing options does solar SME offer?

Solar SME offers financing options for solar panel projects. The company has several options that don't require down payments, and it offers solar leases and power purchase agreements (PPAs) in eligible states. If you go with a lease or PPA, Solar SME owns and maintains the panels. You pay a fixed price for what the solar system produces.
