

Could a large solar farm be built in Devon?

Plans for a large solar farm with 91,000 solar panels across 17 different fields have been recommended for approval in Devon. The site would span 61 hectares and be surrounded by a four-mile long fence. If approved, it would be bigger than any solar farm built in Devon so far.

What services does Sun Spark Solar offer?

Here at Sun Spark Solar, we can offer you a comprehensive range of Solar PV services, including installation, upgrades, maintenance, and fault finding. Our experienced team are fully qualified specialists in solar battery and energy storage systems, ensuring that you get the most out of your domestic or commercial systems.

Why should I use battery storage for my solar plant?

Battery storage can help maximise your use of the energy you generate by allowing you to store excess solar energy for later use. Become your own power station of any size and start generating your own energy.

How many solar panels & 5kW battery storage have you saved?

With 11 solar panels installed and 5KW battery storage we have saved almost £1000 in the first 12 months. We used Sun Energy to install 120 kw of solar onto our property roof at Brixham Trawler Agents. The work they had to do was get the correct planning, liaise with the local council and then design the best possible solution for us.
