

Where will a power plant be located in Oxford County & Woodstock?

Although the facility will be in South-West Oxford and provide power to its residents, it also will serve Oxford County and Woodstock, a city experiencing growth, because of the site's proximity to the city. The storage system will be sited at Thornton Sand and Gravel.

How many megawatts will Oxford energy storage provide?

The project will be connected to a Hydro One transmission line north of the site. The Oxford energy storage facility is projected to be functional for commercial operation by 2027 or 2028 and expected to provide 125 megawatts of power.
